If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

EXAMINER'S AMENDMENT

1. This application is in condition for allowance except for the presence of claims 8-26 directed to an invention non-elected without traverse. Accordingly, claims 8-26 been cancelled.

Allowable Subject Matter

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: independent claim 1 requires the steps of "measuring the area of the etched well at the end of the ECV profiling; [and] applying the measurement of the area of the etched well to the ECV profiling data to produce adjusted data more reproducibly representative of the ECV profile." Claims 2-7 depend directly or indirectly from claim 1.

Gopal et al. "Electrochemical Capacitance Voltage Profiling of the Narrow Band Gap Semiconductor InAs, " Journal of Electronic Materials, vol. 29, No. 11, 2000, ("Gopal") discloses an electrochemical capacitance voltage method that meets all of the

limitations of Applicant's claim 1 except for the two steps quoted above. It would not have been obvious to also perform these two steps in the method of Gopal because Gopal provides "[a] pump which forces a jet of electrolyte onto the sample surface ... periodically to prevent buildup of reaction byproducts and bubbles near the surface", so avoiding inaccuracies in the contact area. Thus Gopal assumes a constant area of the etched well throughout the profiling. See the first and second paragraphs of the section entitled Experiment, which begins on page 1334.

4. The International Search Report for application PCT/GB03/02875 only lists "A" references.
5. The English language translation of the Japanese Office action listed on the Information Disclosure Statement received on April 03, 2009 only makes what in US patent practice is equivalent to 35 U.S.C. 112, second paragraph, indefiniteness rejections. There are no prior art rejections. These indefiniteness rejections do not apply to the allowed claims in the instant application either because the phrases considered indefinite are not in the allowed claims or the indefiniteness has been removed by the preliminary amendment of May 26, 2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEX NOGUEROLA whose telephone number is (571) 272-1343. The examiner can normally be reached on M-F 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, NAM NGUYEN can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
